

H1Z2Z2-K

Solar Cables

DESCRIPTION

The H1Z2Z2-K cable is a highly flexible, halogen-free solar cable for modern photovoltaic systems. It meets the highest standards for safety, weather resistance, and electrical performance - for both indoor and outdoor use.

TECHNICAL DATA

Standard
DIN EN 50618 / VDE 0283-618
Test voltage
6.5 kV

Voltage rating
1.5 kV
Temperature range
-40 °C to +120 °C

CROSS-SECTION DATA

Options: 9 · Cores: 1 · mm²: 1.5–50

1× 1.5 2.5 4 6 10 16 25 35 50
