

H1Z2Z2-K

Solar Cables

DESCRIPTION

The H1Z2Z2-K cable is a highly flexible, halogen-free solar cable for modern photovoltaic systems. It meets the highest standards for safety, weather resistance, and electrical performance - for both indoor and outdoor use.

TECHNICAL DATA

Conductor	Insulation
Tinned copper	XLPE
Sheath	Voltage rating
XLPE	1.5 kV
Temperature range	Flame retardant
-40 °C to +120 °C	Yes
Halogen free	UV resistant
Yes	Yes
