

# NY2Y

Low Voltage Cables

## DESCRIPTION

The NY2Y is an especially robust low-voltage cable for fixed installation under high mechanical demands - whether underground, in water, or in industrial environments. Thanks to its material combination, it is perfectly suited for a wide range of application conditions.

## TECHNICAL DATA

Conductor	Insulation
CU	PVC
CUScreen	Sheath
No	PE

## CROSS-SECTION DATA

Options: 26 · Cores: 1, 3 · mm<sup>2</sup>: 10–500
